

London Borough of Redbridge

About

The London Borough of Redbridge is known for its award winning parks and open spaces, excellent transport links, thriving shopping areas and high-performing schools. The Borough is known as the 'leafy suburb' with one quarter of it being covered by forest and green space, and three quarters of homes owner-occupied.

Our service

Adecco provide London Borough of Redbridge with a full-managed service. They help manage all temporary and contract recruitment needs ensuring that Redbridge's administrative load is reduced, allowing the council to concentrate on their fundamental objectives. The service is supported by award winning technology, Beeline, which ensures an efficient and transparent service. This ensures Redbridge get the full cost-saving benefits of Adecco's managed service solution.

The benefits

Transparency & Cost savings

After implementation and for the duration of the contract, Adecco will work with Redbridge to ensure off contract spend is reduced and continue to develop the strategy put in place during implementation. The collaborative approach ensures that the client receives cost savings, as the margins for these workers will be brought in line with the contract, which means 100% compliance. It will also ensure accurate spend data is readily available as all spend will be in once place and visible from our system.

Audit compliance

Adecco deliver a fully compliant pre-employment screening (PES) process that is audited by dedicated Public Sector Auditors. They have vast experience having audited over 1,000 candidates in the public sector since 2015.

Local people for local jobs

Adecco place significant importance on offering job opportunities to local people within our clients' communities and have developed a number of procedures in order for us to do so.

Adecco in Ilford have been working very closely with me as the Hiring Manager to source a large number of highly skilled technical resources for our Smart Programme at Redbridge. Not only have they been extremely successful in identifying excellent, quality candidates but the level of support, advice and the way they have managed the relationship has been absolutely excellent. Gemma and Clive have been a delight to work with and truly engender the ethos of partnership working.
